Interested parties are hereby notified that a permit application has been received by the New Orleans District of the U.S. Army Corps of Engineers pursuant to: [] Section 10 of the Rivers and Harbors Act of March 3, 1899 (30 Stat. 1151; 33 USC 403); and/or [X] Section 404 of the Clean Water Act (86 Stat. 816; 33 USC 1344).

Application has also been made to the Louisiana Department of Environmental Quality, Office of Environmental Services, for a Water Quality Certification (WQC) in accordance with statutory authority contained in LRS 30:2074 A(3) and provisions of Section 401 of the Clean Water Act.

PUBLIC RECREATION AREA IN ST. CHARLES PARISH

NAME OF APPLICANT: St. Charles Parish Council % Shread-Kuyrkendall and Associates, Inc.,
13000 Justice Ave, Suite 16, Baton Rouge, Louisiana 70816.

LOCATION OF WORK: A proposed 1.75-acre site is located on JB Green Road west of U.S. Hwy 90 in Des Allemands, Louisiana, in St. Charles Parish, Section 39, T14S-R20E, as shown in the attached drawings.

CHARACTER OF WORK: Clear, grade, excavate and deposit fill to construct a recreational facility consisting of a parking area, a baseball field, a covered pavilion, walkways, grill area, slide, swing set, and bench set. The proposed fill material will be hauled in from off-site and consist of approximately 315 cubic yards of crushed stone or gravel and 1,090 cubic yards of topsoil. Approximately 1.35 acres of jurisdictional wetlands would be impacted by project implementation.

The comment period for the Department of the Army Permit and the Louisiana Department of Environmental Quality WQC will close **30 days** from the date of this joint public notice. Written comments, including suggestions for modifications or objections to the proposed work, stating reasons thereof, are being solicited from anyone having interest in this permit and/or this WQC request and must be mailed so as to be received before or by the last day of the comment period. Letters concerning the Corps of Engineers permit application must reference the applicant's name and the Permit Application Number, and be mailed to the Corps of Engineers at the address above, **ATTENTION: REGULATORY BRANCH.** Similar letters concerning the Water Quality Certification must reference the applicant's name and the WQC Application number and be mailed to the Louisiana Department of Environmental Quality at the address above.

The application for this proposed project is on file with the Louisiana Department of Environmental Quality and may be examined weekdays between 8:00 a.m. and 4:30 p.m. Copies may be obtained upon payment of costs of reproduction.

Corps of Engineers Permit Criteria

The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership and, in general, the needs and welfare of the people.

The U.S. Army Corps of Engineers is soliciting comments from the public, federal, state, and local agencies and officials, Indian Tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the U.S. Army Corps of Engineers to determine whether to make, modify, condition, or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

No properties listed on the National Register of Historic Places are near the proposed work. The possibility exists that the proposed work may damage or destroy presently unknown archeological, scientific, prehistorical, historical sites, or data. Copies of this notice are being sent to the State Archeologist and the State Historic Preservation Officer.

Our initial finding is that the proposed work would neither affect any species listed as endangered by the U.S. Departments of Interior or Commerce, nor affect any habitat designated as critical to the survival and recovery of any endangered species.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. The applicant's proposal would result in the destruction or alteration of up to n/a acres of EFH utilized by various life stages of red drum and penaeid shrimp. Our initial determination is that the proposed action would not have a substantial adverse impact on EFH or federally managed fisheries in the Gulf of Mexico. Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the National Marine Fisheries Service.

If the proposed work involves deposits of dredged or fill material into navigable waters, the evaluation of the probable impacts will include the application of guidelines established by the Administrator of the Environmental Protection Agency. Also, a certification that the proposed activity will not violate water quality standards will be required from the Department of Environmental Quality, Office of Environmental Services before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearings shall state, with particularity, the reasons for holding a public hearing.

The applicant has certified that the proposed activity described in the application complies with and will be conducted in a manner that is consistent with the Louisiana Coastal Resources Program. The Department of the Army permit will not be issued unless the applicant received approval or a waiver of the Coastal Use Permit by the Department of Natural Resources.

You are requested to communicate the information contained in this notice to any other parties whom you deem likely to have interest in the matter.

⑦ CLEARED PATHS/WALKWAY - (DIMENSIONS VARY)	18,237 SF
⑧ PROPOSED PARKING AREA	16,920 SF
⑨ UNDISTURBED AREAS - (FUTURE EXPANSION)	16,263 SF

REQ'D. AREA TO BE CLEARED

TOTAL 75,795 SF = (1.75 AC)

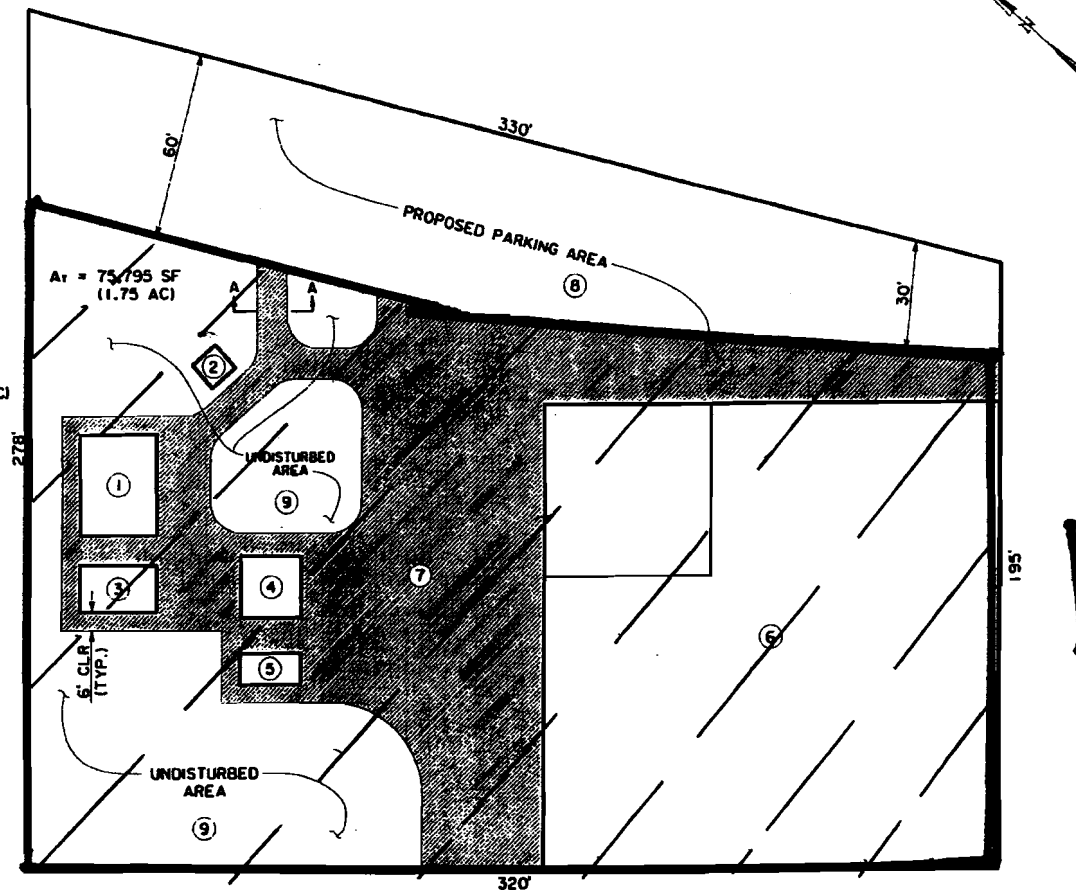

NOTES:

1. PATHS, WALKWAYS, MULTI-PURPOSE FIELD, AND ALL AREAS WHERE PLAYGROUND EQUIPMENT WILL BE INSTALLED WILL RECEIVE APPROXIMATELY 6" OF TOP SOIL MATERIAL (APPROX. 790 CY).
2. THE PROPOSED PARKING AREA WILL RECEIVE APPROXIMATELY 6" OF LIMESTONE (APPROX. 315 CY).
3. THE AREAS DESIGNATED AS "UNDISTURBED AREA" WILL INITIALLY BE LEFT IN ITS NATURAL STATE. HOWEVER, THE APPLICANT WOULD LIKE THESE AREAS TO BE CONSIDERED AS MAXIMUM WETLAND IMPACT AREAS FOR THE FUTURE INSTALLATION OF ADDITIONAL PLAYGROUND EQUIPMENT AND/OR FIELD AREAS. FOR FUTURE EXPANSION, THESE AREAS WILL ALSO RECEIVE APPROXIMATELY 6" OF TOP SOIL MATERIAL (APPROX. 300 CY).
4. NO DREDGING IS PROPOSED ON THIS PROJECT.
5. AS-BUILT DRAWINGS WILL BE SUBMITTED WITHIN 30 DAYS OF COMPLETION OF THIS PROJECT TO THE LOUISIANA DEPARTMENT OF NATURAL RESOURCES, OFFICE OF CONSERVATION, PIPELINE DIVISION, P.O. BOX 94275 BATON ROUGE, LA 70804, AND TO THE LOUISIANA DEPARTMENT OF NATURAL RESOURCES, COASTAL MANAGEMENT DIVISION, P.O. BOX 44487, BATON ROUGE, LA 70804-4487.
6. IN ORDER TO ENSURE THE SAFETY OF ALL PARTIES, THE PERMITTEE SHALL CONTACT THE LOUISIANA ON CALL SYSTEM (1-800-272-3020) A MINIMUM OF 48 HOURS PRIOR TO THE COMMENCEMENT OF ANY EXCAVATION (DIGGING, DREDGING, JETTING, ETC.) OR DEMOLITION ACTIVITY.

■ - AREA TO RECEIVE TOP SOIL MATERIAL (INCLUDING AREA ⑥) (42,612 SF)

⑧ - AREA TO RECEIVE LIMESTONE (16,920 SF)

⑨ - (FUTURE EXPANSION) AREA TO RECEIVE TOP SOIL MATERIAL (16,263 SF)
